Sign up · verify · install the app · payout method · payment link · get paid

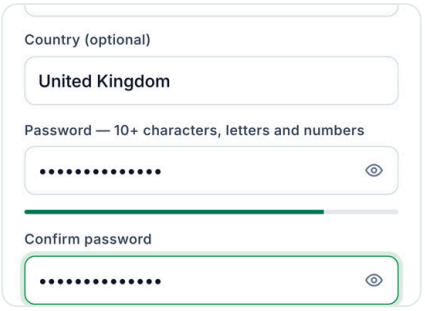

Videos & full guide: **pazopay.pazo.digital/start**

1 Create your account

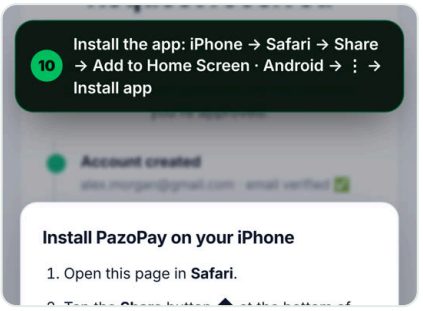

About 2 minutes

Open the sign-up link

Tap “Create account”

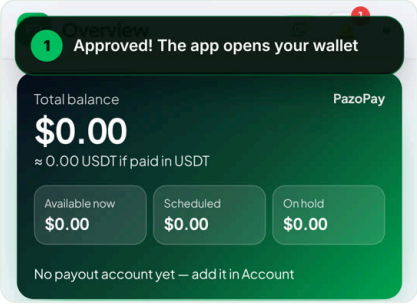

Install the app: iPhone → Safari → Share → Add to Home Screen · Android → ⋮ → Install app

1. Open the sign-up link
2. Your full name
3. Your Gmail — the code is sent there
4. WhatsApp number with country code: +44, +92, +91, +880, +971…
5. A password: 10+ characters, letters and numbers — twice
6. Tap “Create account”
7. Check your Gmail (also Spam)
8. Open our email → tap “Verify my email”
9. Done — your request is sent
10. Install the app: iPhone → Safari → Share → Add to Home Screen · Android → ⋮ → Install app

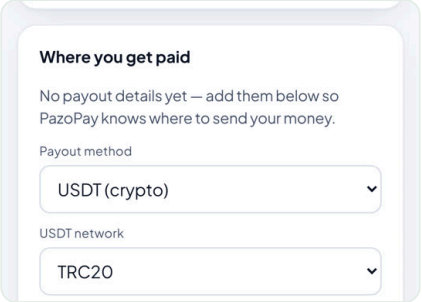

💡 Use **your own Gmail** — the verification email goes there.
💡 Type your WhatsApp number **with the country code**.
💡 Did not get the email? Look in **Spam / Promotions**, then tap **Send a new code**.

2 Get approved & add your payout method

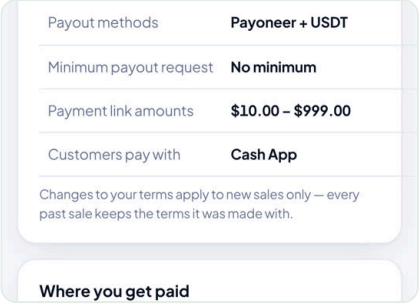

Approval within 1 working day

Approved! The app opens your wallet

Or USDT: choose the network (TRC20) and paste your wallet address

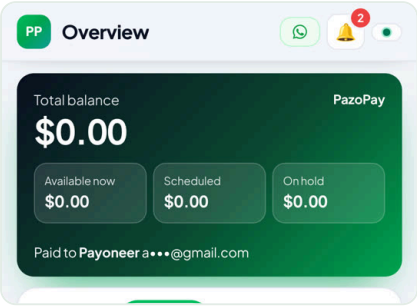

Approved ✅ — payouts go here from now on

1. Approved! The app opens your wallet
2. Tap “Add payout”
3. Payoneer: type your Payoneer email
4. Or USDT: choose the network (TRC20) and paste your wallet address
5. Submit — we check it once for your safety
6. Approved ✅ — payouts go here from now on

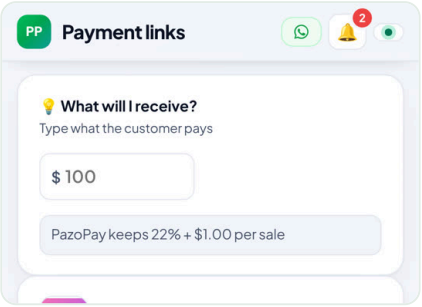

💡 We check every new partner — you get a notification and an email when you are approved.
💡 **Payoneer:** the email of your Payoneer account. **USDT:** choose the network (TRC20 is cheapest) and paste the address — check it twice.
💡 For your safety we approve payout details once before the first payout.

3 Get your payment link & checkout page

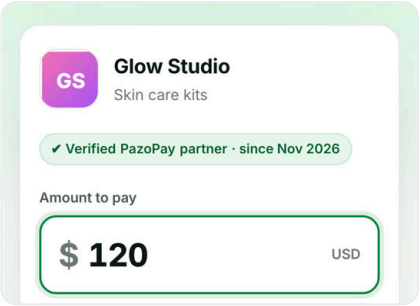

Ready the same day

Tap “Get my link”

“In review” — we check it and create it

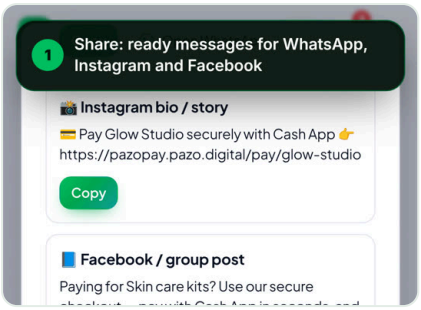

They type the amount and pay with Cash App

1. Tap “Get my link”
2. Your brand name and what customers pay for
3. Customer enters the amount (min–max) — or choose a Fixed amount. Allowed: $10 – $999
4. Add your logo (optional) and send
5. “In review” — we check it and create it
6. Ready! This is your own checkout address
7. Your customers see your brand and logo
8. They type the amount and pay with Cash App

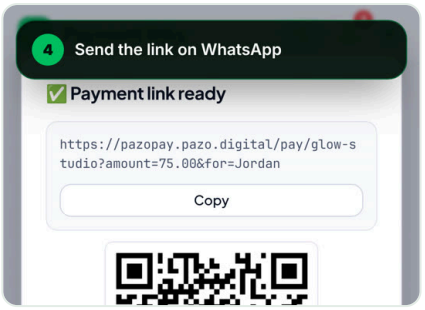

💡 Choose **Customer enters the amount** (a range) or a **Fixed amount**. Allowed: $10 – $999.
💡 Add your logo — customers trust a checkout page with your brand.
💡 Your customers give their full name, email, phone and billing address, then pay with Cash App. This protects you in disputes.

4 Share your link & get paid

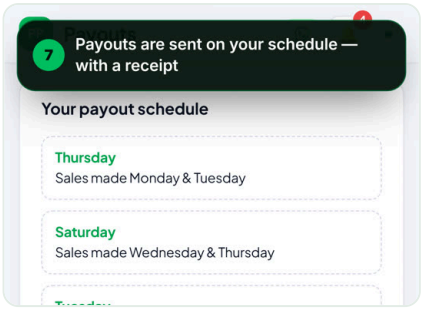

Every day

Share: ready messages for WhatsApp, Instagram and Facebook

Send the link on WhatsApp

Payouts are sent on your schedule — with a receipt

1. Share: ready messages for WhatsApp, Instagram and Facebook
2. QR code — customers scan it to pay
3. Request a payment: exact amount — see what you receive
4. Send the link on WhatsApp
5. Your customer sees $75.00 ready — one tap to pay
6. A sale! You get a notification and your balance goes up
7. Payouts are sent on your schedule — with a receipt

💡 Use **Share messages**, the **QR code** or **Request payment** for an exact amount.

💡 Every sale shows in your app with a notification. Your share is the sale minus the fee shown in **Account → Your terms**.

💡 Payouts are sent on your schedule (see Payouts) with a receipt and transaction ID.
